CareSoft Pro® Softeners

Smart, solid water treatment.

Unwanted minerals and hardness don't stand a chance with our CareSoft Pro water softener. Its high capacity resin media and patented technology will keep your plumbing and appliances operating at peak efficiencies throughout your home.

The innovative features monitor your water usage to run at the highest performance level at all times. The CareSoft Pro features our exclusive Water Efficient Technology which fine-tunes the water and salt used to regenerate the media and save on resources.

The system is designed to be environmentally-friendly while safeguarding your household plumbing, appliances, skin, hair, and laundry. CareSoft Pro units create the good, quality water for your life.

Efficiency is in the details.

W.E.T. WATER EFFICIENT TECHNOLOGY

Water Efficient Technology is our latest breakthrough in water treatment. W.E.T. is a series of patented features to reduce the amount of water and salt used.

- Regenerates with up to half the amount of water as a traditional system
- Does not waste salt during regeneration
- Salt monitor to notify when more salt is needed *(Optional)*
- Savings history screen keeps track of how much you save

No other water treatment solution can compare in features or performance to our W.E.T. features exclusive to WaterCare products. Put the most efficient system on the market in your home to save you water, salt, and money.

Efficient and effective.

Every component, feature, and innovation of our CareSoft Pro softeners has been designed to bring the highest quality, most efficient water to you and your family. CareSoft Pro models are certified for compliance with NSF/ANSI 44.

1 Exclusive Technology

- Deep cleaning regeneration only when necessary
- Exclusive features insures consistent water quality
- Vacation Mode to prevent unnecessary regenerations
- Only one internal moving part for easy maintenance
- Battery back-up
- Equipped with **W.E.T.**
  - **Proportional Brining:** uses less salt *(Available on Upflow Units Only)*
  - **Proportional Regeneration:** uses less water
  - **Alternate Regeneration:** keep the system running at peak performance
  - **Salt Monitor Add-On:** triggers alarm when salt levels are low
  - **Savings History Screen:** shows how much it saves

2 High-Performance Resin

- Powerful and durable media
- Reduces the minerals that cause hard water
- Undergoes rigorous quality control testing

3 Quartz Underbedding

- Delivers high and consistent flow rates
- Provides accurate and efficient cleaning process

4 Low-Maintenance Brine Tank

- Built-in safety float
- Heavy duty, corrosion-free material
- Fills with soft water which reduces cleaning
- Dry salt storage

Making good water for your life.
